## Section 2 – Report of the Executive Mayor

### 2.1 High level assessment of MFMA S71 financial reports for the past 6 months

#### 2.1.1 Against annual budget (original approved and latest adjustments)

##### Revenue by Source

The period under review total revenue actuals inclusive of grants is R 39 378 403. This amount reflect surplus of R27 300 159 mil. However, the figures shows a variance of 7%, which can be attributed to the deduction of R7.2mil withheld for non-compliance in terms of conditional grants. The budgeted amount for property rates is R 10 648 million and the actual figure billed is R 5 898 million. This is due to annual property rates levies adjustment during July of each year on agricultural properties. It should be noted that the amounts for service charges in Table C4 are the actual amounts billed / levied and not the amount that is received. The amount received of R 512 000 in Table C7 is far less than the billed amount which attributed to our cash flow problems.

!Kheis Municipality is facing a surplus of R 27 300 million (this surplus is not cash based, but more on the accrual revenue on revenue from exchange and non-exchange transactions for the period under review. A lot of transactions had been captured with errors, which had only been corrected after the closing of the mid-term report) for the period under review. This will be corrected with the Adjustment Budget

##### Operating expenditure by type

The municipality made provision for an Operating Expenditure budget of R 73 047 mil for the year 2022/2023. The year todate expenditure reflects negative variances on most expenditure items/votes which is an indication of under expenditure on most votes. The year todate expenditure versus the budgeted figure of R 36 522 696 shows a negative variance of –R 16 085 000. This variance can be attributed to the withholding of grants as well as the weak revenue collection. The following are some of the expenditure items that we would like to highlight for the purpose of this Report;

- Other Expenditure was budgeted for R 7.6m and actual to date R 1.7m – -55%
- Contracted services was budgeted for R 3.7m and actual R 471k – -75%(AFS was compiled inhouse)
- Bulk purchases was budgeted for R 1,340 mil and actual is R 212k – -86%

Provision was made for a depreciation accrual of R 9 088 000 for the financial year and is not amortised

##### Capital expenditure

The municipality made provision for a Capital Expenditure budget of R 22 680 000 comprising the following projects;

| MIG                                                                                               | BUDGETED      | SPENT       |
|---------------------------------------------------------------------------------------------------|---------------|-------------|
| 1. Constuction of sewer reticulation, pump station and rising main to oxidation ponds in Wegdraai | --R11 567 000 | R 3 315 662 |

| WSIG                                        |               |        |
|---------------------------------------------|---------------|--------|
| 1. Upgrading of bulk water supply - Topline | - R 5 000 000 | R 0.00 |

Total allocation for Capital Grants for the year was R 16 567 000 and R 8 359 000 was transferred for the period under review

##### Own funding

|                                               |       |             |
|-----------------------------------------------|-------|-------------|
| 2. Grootdrink Sport Facilities                | - R 0 | R 1 177 676 |
| 3. Upgrading of bulk water supply – Brandboom | - R 0 | R 1 031 400 |

The WSIG allocation received were for Topline bulk water upgrade, but the business plan had been reviewed for Brandboom bulk water. Budget will be reallocated with the adjustment budget. Budget for Grootdrink sport facility will also be amended with the adjustment budget.

## **Cash Flow**

The municipality started the year with a bank balance of R -1 380.61 on 1 July 2022 and ended at R 517.16 at the end of December 2022.

Conditional grants received should be ringfenced and invested, because these funds can only be used for capital projects in terms of an approved business plan. The funds may not be used for operational expenditure and therefore it is critical that the Municipality levy and collect sufficient funds to pay for operational expenditure.

Poor revenue collection and over expenditure, result in cash flow problems and non-payment of creditors, which are in contravention with Section 65 (2) (e) of the MFMA.

## **2.2 High level SDBIP overall performance**

The SDBIP is functional and the implementation of PMS's is fully functional for the financial year. The Auditor-General raised several significant issues with regarding to service delivery and budget implementation plan for implementing the delivery of municipal services and the annual budget that did not indicate service delivery targets and performance indicators for each quarter as required by section 1 & 53 of the MFMA. In terms of the Auditors findings in prior years regarding PMS's they raise a lot of issues on which the municipality did not comply with the MFMA. The Annual Report is not in line with the IDP and the SDBIP which make it difficult to meet the predetermined objectives. Steps have been taken to review the current SDBIP and in particular the Predetermined Objectives so that they comply with the National Key Focus areas, are aligned to the IDP and Budget as well as being SMART

## **2.3 Potential impact of the national and provincial adjustments budget**

The municipality did apply for the rollover of R7.2 mil (MIG) however it was not approved by National Treasury. The amount had been offset from the December tranche by National Treasury as part of the non-compliance order that had been issued to the municipality. However, the municipality applied that the amount be spread into three equal instalments. No correspondence had been received from National Treasury with regards to the request of the municipality.

## **2.4 Conclusion**

The mid-year budget and performance assessment indicates that:

- (a) An adjustments budget for 2022/23 will be required, and this must be approved by Council by no later than 28 February 2023.
- (b) The Municipality did adhere by the request of the Auditor –General by implementing the PMS system.
- (c) The revised IDP, taking into account revisions as a result of the adjustments budget and revised SDBIP, must be approved by Council.

### 3.1.2 Table C2: Monthly Budget Statement - Financial Performance (standard classification)

This table reflects the operating budget in the standard classifications which are the Government Finance Statistics Functions and Sub-functions. These are used by National Treasury to assist the compilation of national and international accounts for comparison purposes, regardless of the unique organisational structures used by the different institutions.

The main functions are Governance and administration; Community and public safety; Economic and environmental services; and Trading services.

It is for this reason that Financial Performance is reported in standard classification, Table C2, and by municipal vote, Table C3.

The operating expenditure budget is approved by Council at the municipal vote level.

The municipal votes reflect the organisational structure of the municipality which is made up of the following directorates: Council; Municipal Manager; Corporate Services; Budget and Treasury Office; Community Services, Technical Services; Strategic Planning. Unauthorised expenditure incurred for the financial year will be rectified in the Adjusted Budget.

The fact that there is a budgeted amount for expenditure does not necessarily mean that there are funds available to pay for the expenditure incurred. Therefore, the incurrence of expenditure should be considered carefully.

Virements should be affected in accordance with the approved Virement Policy. This is an internal control measure to prevent unauthorised expenditure. The unauthorised expenditure will be disclosed in the 2022/23 annual financial statements.

The municipalities water infrastructure and fleet is ageing resulting in more frequent repairs putting a further strain on the operational costs which have increased by approximately 50% year on year. **This is a big concern for the municipality.** At this stage the ongoing increase in employee related costs are contributing to the following:

- Poor service delivery
- Litigation against the municipality – Fleet been impounded
- Pension funds in arrears

Table C7 provides a comprehensive picture of the cash position of the municipality which includes non-current investments and commitments against available cash resources. Table C7 includes all cash and cash equivalents (cashbook balances, petty cash balances and short-term investment deposits).

The cash flow statement reflects a positive cash and cash equivalents opening balance of R 517 thousand.

The municipality has a cash inflow of R 34 million and a cash outflow of R 7 million. Our cash flow problems have a negative impact on service delivery within the communities.

The total outstanding creditors are R 35.5 million apart from that, there is a obligation of R7.2mil payable to National Treasury regarding non-compliance of conditional grants. This figure cannot be offset against the R 121.4 million as the R 121.4 million will not be collected within one month. whereas the abovementioned amount is only 29% of total creditors. However, the municipality is currently having vacant erven that can be sold for possible enhancement of the cash flow of the municipality. At this stage our operational expenditure exceeds our operational income as our cash collection rate is below the projected rate.

The debtor department must ensure that all outstanding debt of employees and councillors are collected and monitored.

### 3.1.8.2 Payment levels

Collection Rates (payment levels) reflect the total income collected for the period 01 July 2022 – 31 December 2022. The budgeted collection rate is 50%, actual collection 28%, this is a sign of cash flow problems. This percentage was based on past collection rates.

The table below reflects the total income billed and received per service group.

The total outstanding debtors for quarter 2 of 2022 as at 31 December 2022 are R 121.4 million which indicates an increase of R 5.22 million, when compared with quarter 1, 31 July 2022. Non-collection of outstanding debtors results in cash flow problems. The total indigents that was registered was less than the previous financial year. Due to municipality not able to pay Eskom, indigents are not receiving full benefits such free electricity.

The table indicates the total outstanding debt per service group. The main concern is the increase in outstanding debt of businesses and residential debtors.

## **Section 6 – Recommendations**

### **6.1 Motivations**

#### **6.1.1 Adjustment Budget**

As required by section 72(3) of the MFMA, an adjustments budget is needed to deal with items listed in section 28(2) of the MFMA. The adjustments budget will have to consider minimum change in the national and provincial.

Adjustment budget; effects of implementation of the capital programme; unforeseen and unavoidable expenditure and adjustments required as a result of the increased revenue estimates.

#### **6.1.2 SDBIP Top Level**

Revisions to the SDBIP will have to be made taking into consideration the review of performance indicators and the effects of the adjustments budget. These revisions must be approved following the approval of the adjustment budget as required by section 54(1) of the MFMA.

#### **6.1.3 IDP**

Revisions to the IDP will have to be made as a result of changed priorities of certain capital projects and the changes in ward projects which will be reflected in the adjustments budget; outcomes of the Auditor-General report and changes effected to the SDBIP.
